Interesting initiatives outside our community

Waterkloof closure seems to be “stalled” at 57%

Camera Project

Testing is ongoing and some new test installations.

Some of those cameras are highly specialised License Plate cameras that can capture the license plate of a moving vehicle, day or night. These license plates are automatically checked against e.g. our database of known trouble makers and also national databases of stolen vehicles etc. Automatic Alerts are generated as required and acted upon as happened during the last week of April

IMPORTANT NOTICE: The Muckleneuk Hill Security Annual General Meeting will take place at the Quin and Bull (Harlequins), 56 Totius Street on Saturday 11 June 2022 at 09:00. The agenda includes a presentation on the Camera Project – now being launched and how to contribute.

Other Projects or News

Some people in the community has started some exploratory discussions of closure with Street Safe. **No updates on this**

Data analysis

There is an ongoing effort to look at the data and try and map it on maps to see if we can see any important patterns.

Final Note

As always, keep safe and vigilant this month. Report suspicious people or activities to Interactive security, **ADT, or SAPS. Please report all incidents to incidents@muckleneukhill.co.za** even if you might think it insignificant; report it in any case and we will investigate further.

All incident reports are also available on the MHSI web site:
