Our Suburb — Our Safety — Our Responsibility

Good day all.

For the month of September 2019 we had three incidents in all. One attempted break-in, one attempted vehicle theft and one mugging at knife point.

This year's September compared to the same time last year:

Once again crime down from last year, this I think is due to increased community involvement and reaction to incidents in progress added with increased community vigilance. The attempted break-in was definitely disrupted due to community watchfulness. The worrying incident is the mugging at knife point of residents going for a walk. Always keep vigilant and report suspicious activity on the radio network for fellow MHSI members or the security companies to check out.

Comparison of total incidents during the years we have been keeping track of incidents:

Crime, it seems, is mostly down this year. Crime however takes constant attentiveness to combat. I have attached the same information shown above in another graph as with the amount of information we now have these graphs are becoming a bit hard to read.

The one we are interested in, is the black line. As we can see it is lower for most months than previous years.

As always, keep safe and vigilant this month. Report suspicious people or activities to Interactive security, ADT or SAPS. Report any incidents to incidents@muckleneukhill.co.za even if you might think it insignificant; report it in any case and we will investigate further.

Incident Manager MHSI.
